EDUCATION

The University of Texas at Austin

2019 - 2023

B.S. Computer Science

Relevant Coursework: Data Structures, Discrete Math

Transferred Coursework: Linear Algebra

PROJECTS

Forward Tutoring (<https://forwardtutoring.net>)

- A 501(c)3 non-profit for online tutoring.
- Made massive improvements in the backend infrastructure.
- Added user many requested features.
- Built using: **React, Meteor**

GoPerform (<https://github.com/InfernalHydra/GoPerform>)

- Built for SXSW Hackathon 2019. Create a mobile app to help street performers get discovered.
- Built using: **React Native, Express, Node, and MongoDB**

Spotify Mini Player (<https://github.com/InfernalHydra/spotifyminiplayer>)

- Created a mini player for Spotify.
- Built using: **React, Node, Express, Electron**

TECHNICAL STRENGTHS

Languages

- Fluent in - JavaScript, Java
- Familiar with - HTML/CSS, SASS, Python 3, C++, MongoDB, \LaTeX

Frameworks - React, Node, Express, Meteor, React Native, Electron, pandas

EXTRA-CIRRICULARS

ATX Scioly - 2019

Member

- Proctored exams for upcoming UT Science Olympiad tournaments.

Computer Science Organization - 2018-19

Competitions Coordinator

- Organized and planned a fall hackathon.
- Taught classes pertaining to algorithms and web development.
- Coordinated practices and transportation for algorithm competitions and hackathons.
